RATIO

You will find exceptional versatility with this functional and flexible shelving system.

This shelving system encapsulates the true meaning of flexibility. Its modular construction provides the highest degree of functionality and versatility and its style; and quality makes it suitable for both contemporary and classic library environments.

The Ratio shelving system offers two different visual and functional options: Ratio-B is without top shelf and the bottom shelf is placed 230 mm above the floor, creating an open, airy feel. The Ratio-S model is with top shelf, bottom shelf as well as a plinth, the bottom shelf being placed only 100 mm from the floor, taking full advantage of the height of the shelving system and is ideal for large volumes often used in scientific libraries. The article number for the bay is the same, the model depends on where you place the shelves on the actual bay.

The design of the shelving system, with 32 mm increments, allows for easy assembly and adjustment without the use of specific tools.

The Ratio Shelving System is available as single- or double-sided and can be fitted with steel or wooden shelves, as well as a wide variety of other functional components. The result – a customisable shelving systems that fits the requirements of your specific library.

STEEL COMPONENTS (see overview page 6)

Price Group 1: no surcharge.
Price Group 2: surcharge of 7%.
Price Group 3: other RAL/NCS colours with a starter fee of EUR 250 and with a surcharge of 15%. A higher surcharge for colours with "metallic" look or different surface textures must be expected.

See specific colour for steel gloss specification. Special requests outside specified gloss range are not covered by the above surcharges.
Chrome, electro galvanised and aluminium parts are not available in other colours.
Products such as e.g. wheels and accurides cannot be produced in other colours than described in the price list.

WOODEN COMPONENTS (see overview page 7)

MELAMINE COATED

Price Group A: no surcharge.
Price Group B: surcharge of 10%*

*If you wish to order shelf length of W1000 mm in group B, please contact Sales, as prices vary depending on quantity ordered.

VENEER

Price Group C: surcharge of 20%.

OTHER FINISHES

Most of the wooden components are available in other finishes, such as laminate (HPL), with a surcharge, please ask customer service.

Ratio shelving with functional end panels

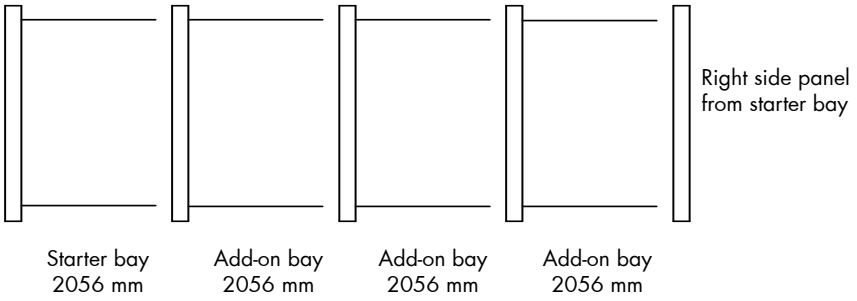
TECHNICAL SPECIFICATIONS

GENERAL SPECIFICATIONS

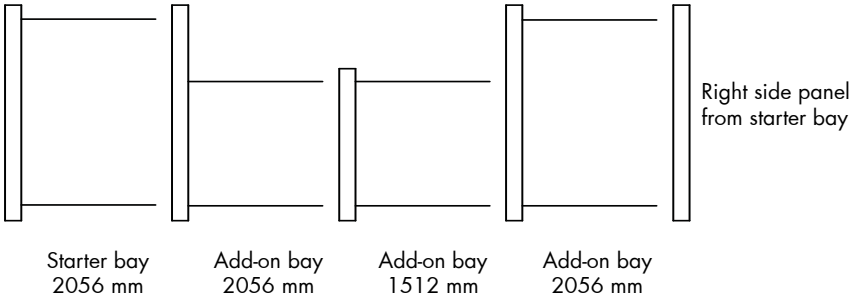
DIMENSIONS
Dimensions of each component can be found under the individual products. All cited measurements are nominal sizes. The actual size of a module measuring 1000 mm is 995 mm etc.

MAXIMUM LOAD
Wooden and steel shelves are to be loaded with a maximum of 80 kg.

BAY CONSTRUCTION - STARTER AND ADD-ON BAY - SAME HEIGHT
A starter bay includes one right and one left end panel with holes on the inside of the panel. To add another bay, you must take off the right end panel, insert the add-on bay (with one intermediate panel with holes on both sides) and fix the right end panel to the add-on bay. See example below.



BAY CONSTRUCTION - STARTER AND ADD-ON BAY - VARIOUS HEIGHTS
When constructing a shelving system with various heights, you must take care when ordering starter and add-on bays. See example below.



BAYS WITH CASTORS
Only double-sided shelving with back frame support with a max. height of 1768 mm can be mounted on castors, and only double-sided shelving with cross brace/back panel with a max. height of 2056 mm can be mounted on castors. Castors are only to be mounted on a max. of 2 adjoining bays. Castors are available as soft/hard and with/without brakes. Max. load of 90 kg per castor.

SHELVES WITH SCREWS AND PINS
Wooden and steel shelves are delivered with either screws (for fixation) or pins (for insertion). Each bay must have at least 2 shelves (4 shelves for double-sided bays) - top and bottom - screwed into the panels for stability. The remaining shelves can be inserted via pins. See overview below for amount of shelves necessary for each bay height
H1096 mm - 2 shelves - top and bottom
H1512 mm and higher - 3 shelves - top, intermediate and bottom

ASSEMBLY
All wooden shelving units come knocked-down. No special fittings or tools are needed.

TECHNICAL SPECIFICATIONS

STEEL COMPONENTS

STEEL COMPONENTS

are powder coated with standard polyester based powders that secures high UV resistance. Powders comply with EN 45545 (fire protection - similar to DIN 4201). Thickness of the coating is 60-80 my.

The powder used includes:
- no triglycidylisocyanurate (TGIC)
- no heavy metal-containing pigments such as lead and cadmium
- no volatiles

Antibacterial equipping of surfaces upon request.

CROSS BRACES

are made of galvanized steel Ø4 mm. When installed the cross brace has a total height of 1340 mm, the cross brace can therefore not be used for bays H1096 mm.

BACK FRAMES

are made of 30 x 15 x 2 mm rectangular steel tubes.

SHELVES

are made of 1 mm steel.

FRAMES FOR CASTORS

are made of 40 x 20 x 2 mm rectangluar steel tubes and 40 x 5 mm flat steel.

WOODEN COMPONENTS

are either melamine coated or have a environmental-friendly transparent lacquered veneer finish. Differences in colour underline the characteristics of veneer and cannot be avoided.

MELAMINE COATED AND VENEER END PANELS
are made of 25 mm E1 quality particle board. End panels are also available in 26 mm glued solid beech or oak upon request.

MELAMINE COATED AND VENEER INTERMEDIATE PANELS
are made of 25 mm E1 quality particle board.

MELAMINE COATED AND VENEER FUNCTIONAL END PANELS
are made of 25 mm E1 quality particle board.

MELAMINE COATED AND VENEER BACK PANELS
are made of 16 mm E1 quality particle board.

MELAMINE COATED AND VENEER SHELVES
500, 750 and 900 mm shelves are made of 25 mm E1 quality particle board.
1000 mm shelves are made of 25 mm blockboard (to prevent shelf from sagging).

MELAMINE COATED AND VENEER TOP COVER
are made of 25 mm E1 quality particle board.

MELAMINE COATED AND VENEER DOORS
are made of 19 mm E1 quality particle board.

GLASS COMPONENTS

GLASS DOORS
are made of 6 mm toughened glass (ESG).

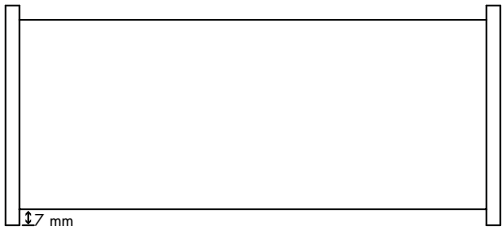
RATIO SQUARE

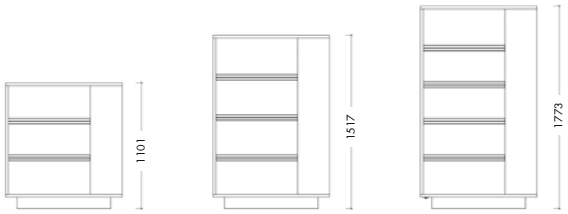


The Ratio panel comes with a flat front end. The shelves are almost flush with the panels, the distance between the front edge of the panel and the front edge of the shelf is 7 mm. The holes are placed 37 mm from the edge of the panel.

Ratio panels are delivered as standard with 25 mm E-1 quality particle board with melamine coated/veneer finish.

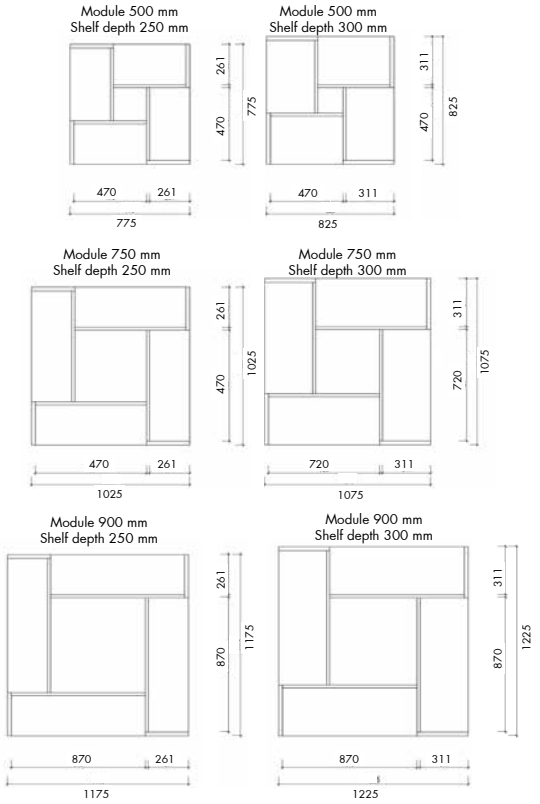
HEIGHTS

Ratio Square is available in 3 heights; 1096/1101, 1512/1517 and 1768/1773 mm (with H95 mm castors /H100 mm plinth). The shelves are adjustable in 32 mm increments.



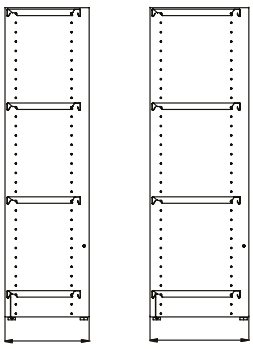
WIDTHS

The bays are available in 3 widths:
500, 750 and 900 mm. The total width of the unit depends on your choice of both shelf width and shelf depth.



DEPTHS

The panels are available in 2 depths: 250 and 300 mm.
Actual width of single-sided 250 mm panel is 287 mm
Actual width of single-sided 300 mm panel is 337 mm



RATIO SQUARE

CONFIGURATIONS WITHOUT SHELVES

A complete square shelving with end panels, back panel, top and bottom plate. There are 8 castors in total (4 inner castors without brakes, 4 outer castors with brake). See pages 43-70 for shelves and functions for Ratio Square.

RATIO SHELVING

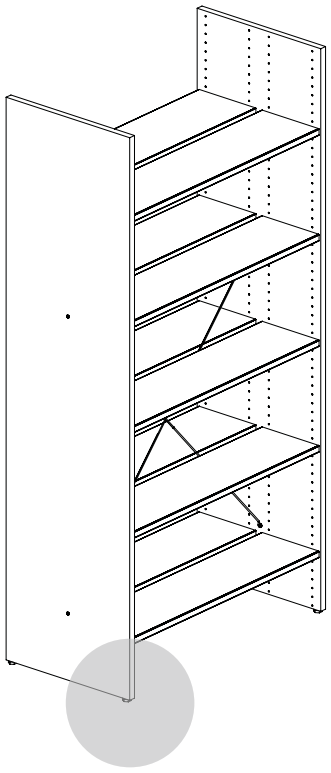
The following pages will show basic configurations of the Ratio shelving system. The article numbers are made according to the following system:

Pos. 1	Pos. 2-3	Pos. 4	Pos. 5-6	Pos. 7	Pos. 8	Pos. 9	Pos.10	Pos.11
Company name	Shelving type	Business number	Bay type	Panel type	Connection element	Height mm	Module mm	Shelf depth mm
S	RT	B	11	1	1	G	W	M
Schulz	Ratio	B	11: SS starter 12: SS add-on 13: DS starter 14: DS add-on 16: DS starter with castors 17: DS add-on with castors	1: Melamine coated / veneer	1: Cross brace 2: Back panel 3: Back frame	G: 1096 C: 1512 A: 1768 D: 2056 E: 2248	R: 500 S: 750 U: 900 W: 1000	M: 250 N: 300

The Ratio shelving system offers two different visual and functional options:

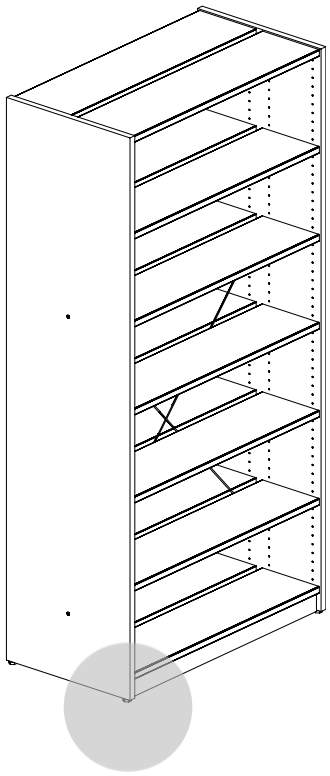
RATIO-B

This system offers the open floor space often required for open-shelf libraries, as the bottom shelf is placed 230 mm above the floor and is without plinth. You still have the option adding a top shelf.

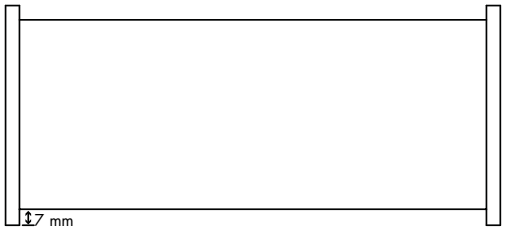


RATIO-S

This system offers the option of adding both top and bottom shelf, as well as a plinth, making a fully enclosed wooden shelving system. The bottom shelf is placed 100 mm above the floor.



RATIO SHELVING



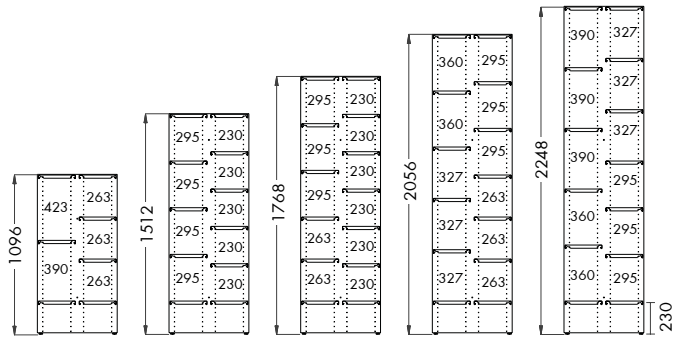
The Ratio panel comes with a flat front end. The shelves are almost flush with the panels, the distance between the front edge of the panel and the front edge of the shelf is 7 mm. The holes are placed 37 mm from the edge of the panel.

Ratio panels are delivered as standard with 25 mm E-1 quality particle board with melamine coated/veneer finish but can also be delivered in solid 26 mm beech or oak upon request.

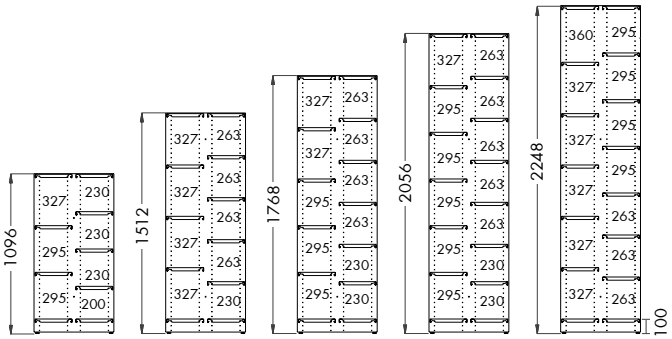
HEIGHTS

Ratio shelving system is available in 5 heights; 1096, 1512, 1768, 2056 and 2248 mm. Heights include adjustable feet (max. 15 mm) with leveling screws in steel threads. The shelves are adjustable in 32 mm increments. Depending on where the shelves are inserted, the following variations are possible:

RATIO-B

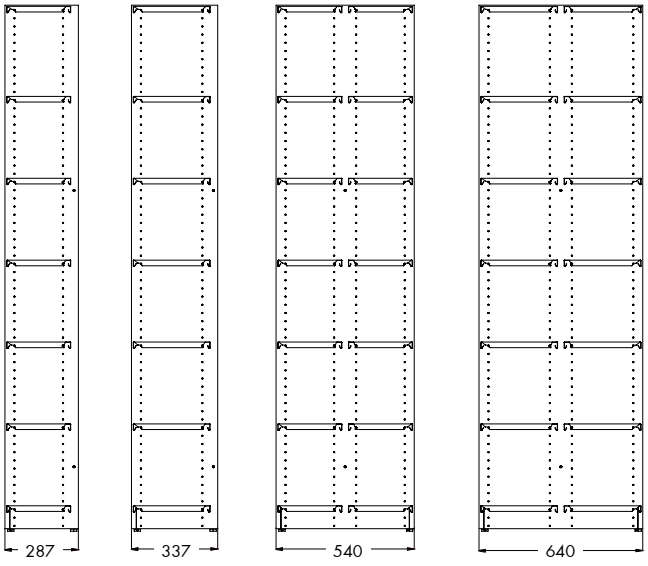


RATIO-S



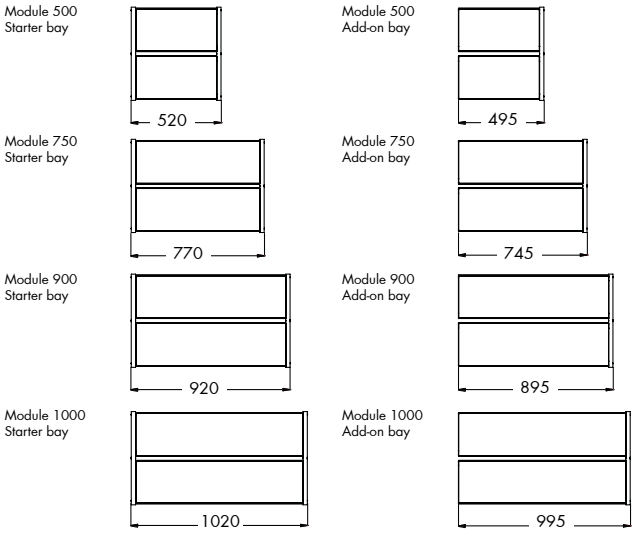
DEPTHS

The panels are available in 2 depths:
250 and 300 mm.
Actual width of single-sided 250 mm panel is 287 mm
Actual width of single-sided 300 mm panel is 337 mm
Actual width of double-sided 250 mm panel is 540 mm
Actual width of double-sided 300 mm panel is 640 mm



WIDTHS

The bays are available in 4 widths and as starter and add-on bays. A starter bay has two side panels and an add-on bay has one side panel.



PANEL OPTIONS

Ratio panels are delivered as standard with 25 mm E-1 quality particle board with melamine coated/veneer finish as either standard end panel or with functional end panel.

PANEL OPTIONS

You also have the option of having end panels delivered in solid 26 mm beech or oak or add an end panel in perforated steel.

BCI

RATIO SHELVING

SINGLE-SIDED - CROSS BRACE

The starter bay includes two end panels (with holes on the inside), cross brace and fittings. The add-on bay includes one intermediate panel (with holes on both sides), cross brace and fittings. Bay with cross brace is not available for H1096 mm due to height of cross brace. For shelves and functions, see from page 43.

WOODEN COVER TOP SHELVES

This cover top shelf can be used individually as top shelf or be placed directly onto a traditional wooden or steel top shelf to create a design variation. It can also be used as a work surface especially on low bays (1100 mm). It is available as single, starter, middle and end shelf. It is also available as a continous cover top shelf for 2-3 bays upon request (max. length 2600 mm). Standard top shelf with sign profile and hanging book supports can be used in combination with the cover top shelf.

FUNCTIONS

DOORS

The Ratio system offers the possibility of closing off complete shelving bays or individual sections with either glass or wooden doors. To ensure staibility, it is recommended that you only install the doors on bays equipped with a back panel. Existing bays with back panels can easily be retrofitted with glass or wooden doors.

Glass doors - for Ratio-S

For single- or double-sided bays with back panels. Set consists of 2 lockable glass swing doors. All shelves fit in bays equipped with glass doors.
