# HAND SANITIZER FLOOR STAND

FOR CHILDREN AND ADULTS

DESIGN EUROBIB DIRECT

*PROTECT YOURSELF AND YOUR VISITORS*

Stable, freestanding floor stand for hand disinfection with A4 magnetic frame for easily change of information. Ideal for almost all kinds of disinfection bottles with pump, but mostly ideal for 500-600 ml bottles, which are secured with the included strips. Place your floor stand in entrance zones, return zones, at information desks and search stations to secure good hygiene in the entire library.

Hand disinfection and poster are not included.

## *HAVE YOU THOUGHT ABOUT THE SMALLER VISITORS*

We have designed a shorter version of the hand sanitizer floor stand for the smaller visitors in the library. Use the colourful posters to draw attention to the smaller users. You can download and print these 4 posters for free on our website.
